RESEARCH

RESEARCH EXPERIENCE

2010 – 2011 Post-Doctoral Fellowship of Healthy Aging, Texas A&M University Health Science Center, School of Public Health, Department of Social and Behavioral Health, College Station, TX

National Outcomes Study (Investigator, PI: Ory). A joint effort with the National Council on Aging (NCOA) and the Stanford Patient Education Research Center at Stanford University. The goal is to conduct a national study of 1,000 older adults to document individual outcomes of the Stanford Chronic Disease Self-Management Program, such as self-reported health status, quality of life, health behaviors, and health care utilization. This collaboration bridges the research to practice gap, furthering our knowledge about the outcomes of widely disseminated evidence-based programs (EBP) for seniors.

Planning a Nationwide Evaluation of Evidence-Based Programs for Seniors (Investigator; PI: Ory). A collaborative project with support from the Centers for Disease Control's Prevention Research Center-Healthy Aging Research Network. This project will develop a comprehensive plan for a nationwide evaluation of evidence-based programs for seniors.

2008 – 2009 Graduate Research Assistant, Texas A&M University Health Science Center, School of Public Health, Department of Health Policy and Management, College Station, TX

National Institute on Aging Project "Developing Prevalence Measures of Elder Abuse in Long-Term Care (P.I.: Hawes, 1R21AG030665 – 01):" Developing and testing methods for producing reliable estimates of the prevalence of elder abuse in nursing homes and assisted living/residential care facilities.

2007 – 2008 Statistical Consultant, Texas A&M University, School of Architecture, Department of Urban Planning, College Station, TX

National Institute on Aging Project "Outdoor Spacing for Aging: Environmental Assessment and Survey (P.I.: Rodiek)": Analysis of multilevel structured data regarding how institutionalized older adults assess their outdoor spacing.

2006 – 2007 Graduate Research Assistant, Texas A&M University Health Science Center, School of Public Health, Department of Social and Behavioral Health, College Station, TX

Brazos Valley Health Survey 2006 Project (PI: Burdine): A collaboration of St. Joseph's Regional Health Center, College Station Medical Center, Trinity Medical Center, the Brazos Valley Council of Governments, Brazos Valley Community Action Agency, and the School of

Public Health Brazos Valley Regional Health Status Assessment – II. This is a second regional assessment used for program planning and evaluation by the Brazos Valley Health Partnership and its member organizations.

GRANT UNDER REVIEW

- Principal Investigator. NIA R01 Grant. “Childhood Adversity and Modifiable Midlife Health Pathways to Alzheimer’s Disease: A Life-Course Approach.” \$1,250,000, Total project costs (2026-2031).
- Principal Investigator. NIA R21 Grant. “Insomnia, Depression, and Medication Effects on Mild Cognitive Impairment to Dementia Progression: A Nationwide TriNetX Research Network Cohort Study.” \$275,000, Total project costs (2026-2028).

COMPLETED RESEARCH SUPPORT

- Principal Investigator. 2024 Health Research Grant. “Insomnia, Major Depressive Disorders, and Risk for Alzheimer’s Disease and Alzheimer’s Disease Related Dementias.” \$7,500, Total project costs (2024 – 2025).
 - The purpose of this study was to determine whether co-occurring insomnia and major depressive disorder increase the risk of ADRD beyond their independent effects, using a large electronic health records cohort of older adults.
- Principal Investigator. ICTS Just-In-Time Core Usage Funding Program. “Mediating Roles of Sleep Disorders and Psychiatric Disorders between PTSD and Cognitive Decline.” \$4,950, Total project costs (2023-2024).
- Sub-award P.I. (Ory, M. G., P.I.) Healthcare Utilization & Cost among Diabetic Patients. Texas A&M University (Prime Funder: Blue Cross Blue Shield Texas). \$9,999 Total project cost (2023).
- Sub-award P.I. “Empowering Church Health Outreach (ECHO) Project” Church Health. \$3,547 Total project costs (2022).
- Co-Investigator (Levy, M., P.I.). Transforming Academia for Equity. RWJF. “University of Memphis: Eradicating Systemic Racism and Promoting Social Justice through Academic Public Health”. \$300,000 Total project costs (2022-2024).
- Co-Investigator (Yang, Y, P.I.). Aging and Health in Memphis. “Community of Research Scholars (CoRS) Grant” \$2,500 Total project costs (2018-2019).
- Sub-award P.I. “Congregational Care Transitions Project.” Church Health Center. \$55,207 Total project costs (2013-2018).
 - The purpose of this study was to evaluate a standardized faith community nursing transition of care program. Using propensity score matching, the program was associated with reduced 30-, 90-, and 180-day readmissions and shorter hospital stays by integrating spiritual, medical, and social support.
- Co-P.I. Summer Healthcare Research Grant from the Methodist Le Bonheur Center for Healthcare Economics. “A Care Transition Program to Avert Post-Discharge ER Visits and Hospital Readmissions: Memphis-Based Church Health Faith Community Nurse (FCN) Pilot Project” \$8,000 total costs (2017-2018).

- Consultant P.I. Developing & Disseminating Web-Based Healthcare Cost Saving Estimator Tool for Health Promotion Programs for Use in the Healthy South Texas Initiative. Texas A&M University (Prime award from the Healthy South Texas). \$29,960 total costs (2017-2018).
- Principal Investigator. Memphis Research Consortium (MRC) Pilot Grant Award. “Adverse Family Environments and Childhood Obesity: A Moderated Mediation Model of Mental Health and Social Supports in the City of Memphis.” \$22,527, Total project costs (7/15/2016 – 6/14/2017).
 - The purpose of this project is to examine how children’s mental health and coping skills mediate the relationship between adverse family environments and childhood obesity, and how social supports can buffer these effects. Using national survey data and local pilot studies in Memphis, the study aims to identify protective factors that strengthen resilience and guide community programs and policy to reduce childhood obesity risk.
- Sub-award P.I. “Developing PCOR Capacity for Improving Cancer Disparities.” Eugene Washington PCORI Engagement Awards Program. \$10,150 total costs (10/1/2015 – 9/30/2017).
 - The purpose of this project is to strengthen patient-centered outcomes research capacity in Memphis by engaging minority and underserved cancer patients, caregivers, and stakeholders. Through patient–stakeholder councils and caregiver groups, the project will identify research priorities and improve communication between patients, providers, and researchers. The ultimate goal is to reduce cancer disparities in breast, colon, lung, and prostate cancers and create a model for similar communities.
- Consultant P.I. Conducting Cost-Effectiveness Analysis for South Texas Initiative. Texas A&M University (Prime award from the Healthy South Texas). \$9,500 total costs (09/01/16 – 08/31/17).
 - The purpose of this project is to support the Healthy South Texas Initiative by providing expertise in health management and policy, particularly around cost analysis and evaluation of chronic disease programs. The work involves conducting cost-savings analyses, preparing policy briefs and reports, and coordinating with regional offices and leadership to strengthen program implementation and sustainability. Ultimately, the project aims to generate evidence that informs decision-making and demonstrates the value of Healthy South Texas activities in improving community health
- Sub-award P.I. “Congregational Care Transitions Project.” Baptist Memorial Hospital-DeSoto. \$6,532 Total project costs (2015-2017).
- Sub-award P.I. “Texercise Select, an Exercise & Nutrition Program for Older Adults.” Texas A&M Health Science Center School of Public Health (Prime award from the Texas Department of Aging and Disability Services). \$10,000 total costs (2015-2016).
- Sub-award P.I. (M.G. Ory, P.I.). “Chronic Disease Self-Management Program” Texas A&M University Health Science Center School of Public Health. \$50,000 Total project costs (2012-2014).
 - The purpose of this project is to streamline and validate the Stanford Chronic Disease Self-Management Program (CDSMP) Fidelity Checklist for practical use in community and clinical settings. By creating shorter versions that maintain program integrity while reducing burden, the project aims to support consistent delivery and strengthen fidelity monitoring.
- Sub-award P.I. “Church Health Center’s Diabetic Obesity Weight Loss Pilot Program – Healthy Living.” BlueCross BlueShield of Tennessee Health Foundation. \$7,030 Total project costs (2012-2014).
- Co-Investigator (K. Ward, P.I.). “Developing a Tailored Clinical Decision Support System for Pediatric Obesity Screening and Treatment.” FedEx Institute of Technology Grant. \$8,498 Total project costs (2012-2013).

- Subcontract P.I. (M.G. Ory, P.I.). "Communities Putting Prevention to Work; Chronic Disease Self-Management Program." National Council on Aging. \$23,597 total project costs (2011-2012).

TRAVEL/PUBLICATION GRANTS AWARDED

- CTXCARES Travel Awards (\$1,250), 2014.
- Publication (BMC Public Health) Grant (\$2,060), 2013, Texas A&M University Health Science Center.
- The University of Georgia College of Public Health Travel Grant (\$1,979), 2013.
- Career Development Travel Grant, Texas A&M University Health Science Center, November 2007.

TEACHING

COURSES TAUGHT:

Instructor, Fall 2024, Spring 2024, Fall 2023, Fall 2022, **Health Policy (HMP 5500 [Sections 1, 2, & 9])** at Saint Louis University College for Public Health & Social Justice Department of Health Management & Policy. The purpose of this course is to move graduate students towards becoming “policy competent”, with an overview of the health care policy process in the United States and an understanding of and applying the basics of policy analysis.

Instructor, Fall 2024, Spring 2024, Fall 2023, **Population Health Management (HMP 2300)** at Saint Louis University College for Public Health & Social Justice Department of Health Management & Policy. The goal of this course is to introduce undergraduate students to fundamental aspects of population health management. Key topics covered include social determinants of health, the triple aim, patient engagement, and risk adjustment.

Instructor, Fall 2025, **Creating High Reliability Organizations (HMP 5850)** at Saint Louis University College for Public Health & Social Justice Department of Health Management & Policy. The goal of this course is to equip students with the knowledge and practical skills to build and lead healthcare organizations that achieve high reliability and a culture of safety. Students will learn to apply core HRO principles, along with Lean and Six Sigma methodologies, to diagnose organizational failures, design strategic solutions, and implement sustainable quality and safety improvements.

Instructor, Spring 2022, Fall 2021, Spring 2021, Fall 2020, Spring 2020, Spring 2019, Spring 2018, Fall 2017, Spring 2017, Fall 2016, Spring 2016, Fall 2015, Spring 2015, Fall 2014, Spring 2014, Fall 2013, Spring 2013, **Health Policy and the Organization of Health Services (HADM 7105/8105)** at the University of Memphis School of Public Health, Division of Health Systems Management and Policy. This course covers the history and development of health policy and organization in the U.S., the forces affecting health policy, the impact of policy on health services delivery, and the most recent health care reform efforts.

Instructor, Summer 2022, Fall 2021, Summer 2021, Fall 2020, Summer 2020, **Population Health Management (HADM 7140)** at the University of Memphis School of Public Health, Division of Health Systems Management and Policy. This course focuses on critical concepts in population health and population health management. Attention is given to both health care and public health dimensions of identifying, managing, and improving population health outcomes in an era of health care reform. Population-level determinants of health are addressed in detail, as are the rationale and tools for monitoring and improving health problems at a population level.

Instructor, Fall 2020. **Health Services Research (PUBH 8400)** at the University of Memphis School of Public Health, Division of Health Systems Management and Policy. The purpose of this doctoral seminar is to provide an overview of research design and research methods in health services research. This course provides a comprehensive introduction to research process, including conceptualization of a research study, research design of methods and measures, data collection, data analysis, and guidelines for writing and presenting results in health services research.

Instructor, Spring 2019, Spring 2018, Spring 2017, Spring 2016, Spring 2015, Spring 2012, **Aging, Public Health, and Health Services (PUBH 7505/8505)** at the University of Memphis School of Public Health, Division of Health Systems Management and Policy. The graduate seminar introduces students to population aging and the current U.S. infrastructure designed to provide health services to the aging. It also focuses on federal and state policies that affect the health of the older citizens as well as the systems designed to meet their health care needs.

Co-Instructor, Spring 2018, **MPH Master's Project Seminar (PUBH 7992/7992-M50)** at the University of Memphis School of Public Health. This seminar serves as a capstone course for students to discuss and reflect upon their practicum experiences. During this structured seminar, students and faculty discuss the theoretical framework, public health significance, policy impact, and relevance of their practicum projects. I advised 6 MPH students with health systems and policy (HSP) concentration.

Instructor, Fall 2012, **Health Systems (HADM 6101)** at the University of Memphis School of Public Health, Division of Health Systems Management and Policy. This graduate-level course in Health Services Administration is designed as an introductory course with a systematic overview of the U.S. health services system. Emphasis is on the health policy, population health, medical care delivery, and support for medical care delivery. The main purpose of the course is to acquaint students with the various mechanisms through which health care services are delivered in the United States.

Co-Instructor, 2007, of **Rural Public Health System (PHPM 601)**; Primary Instructor: Dr. Craig Blakely) at Texas A&M University Health Science Center School of Public Health. The class introduces the field of public health and rural health conditions, issues, professions, organizations, and policies relevant to the health of rural communities.
